

Healing the Felt Need for Stimulants and Asking for M[∞]O's ("M Infinity O's")

Because this work involves intentions related to the DNA, for it to be effective, you need to either hear or see Mo sounding all the intentions. (This replaces "Healing the Felt Need for Nicotine and Caffeine" previously posted.)

With "M Infinity O's," you are asking for *unconditional love (M) into infinity in all there is (O)*, and the work of the Energy Healing Partners Team that cannot be refuted will be manifested for you, if needed. You only need to say it once.

Mo often makes a request to Guidance by asking for the assistance of one of her many helpers that are living beings on the planet. Humans often do not have the capacity to understand the language or the situation that needs help. However, Guidance can come through Mo and be of assistance to humans in that way. Mo just asks for help with the intention, whatever it is.

1. I want energy increased as needed for the highest good.
2. I want the gravity threads to have the specific gravity viscosity for clear focusing.
3. I want the ability to keep going fueled by chocolate instead of caffeinated beverages.
4. I want the result of this healing to be staying in the present time/space and in-between and operating as an integrative whole.
5. I want a gold energy field around living beings that attracts only what is absolutely 100% Pure.
6. I want cells to ignore the holographic neuropeptides that are seeking the rush and to pay attention to nutrients needed for health and well-being.
7. I want the gift of intentionality to promote being an effective creator of positive choices for the highest good.
8. I want a pentagon around the pituitary gland, and I want the pituitary gland to be absolutely 100% Pure.
9. I want emotions healed, I want negative emotions prevented from reinforcing chemically, and I want these intentions to go through Mo's Kabbala energy in the hologram as well as in the physical.
10. I want the transporter terminal selection switching station to be rhythmic, in sync, uniform, and heartfelt.
11. I want neutralization of the ET3's¹ "have to have" related to caffeine.
12. I want genes in the DNA to be free of stimulating substances, and I want DNA movement to be down the vertical for the highest good.

¹ ET3 has Modian energy and is absolutely 100% pure.

13. I want the DNA to be absolutely 100% clear and pure, and—in the Living System, [see healingforearth.com] I want the original Evaluator on the net from the Output Transducer of the Transmitting System to the Input Transducer of the Receiving System to activate the “can’t live without it” response ONLY as needed for the highest good in the present time/space and in-between that changes every millisecond.

14. I want the addition of the 7th dot healed for the highest good.²

15. I want these intentions in M[∞]Os.

[Individual says, “For myself and all my parts—from the smallest to the largest, in all body parts with consciousness, and in all time/space and in-between, I want irrefutable M[∞]Os.”]

16. I want balanced energy to be the highest priority.

17. I want to see mistakes as learning experiences and part of being human.

18. I want perseverance to prevail.

19. I want the benefit of learning from pushing boundaries questioned when “have to haves” are involved.

20. I want reliance on the idea that *you can simply choose to do or not do something* to include that there may be other possibilities when “have to haves” are involved.

21. I want the ability to go with the flow appreciated, but also questioned in the context of the bigger picture that may need to include more thought-through solutions.

22. I want connection to our roots to be for the highest good.

23. Crow, I want this intention manifested.³

24. Turkey, I want this intention manifested.

25. I want the approach to the “have to have” issue to include *seeing* the reality of the end result.

26. Honey bees, I want this intention manifested.

27. I want the *Intentions for Well Being*.

28. Sea Creature #2, I want this intention manifested.

29. Scots Pine, I want this intention manifested.

² This statement reflects the coming of ETs to earth long before any other living beings were here. We have learned that a line of 6 dots has no polarity, but when a 7th dot is added, one end of the line is a positive valence and the other end is negative—and polarity was born! Draw lines of 6 and then 7 dots and dowse them!

³ Many of the statements are making a request to Guidance that Mo can ask for help (such as Crow, Turkey, etc). They can speak in a language that is totally foreign to humans, including primitive languages—even before earth existed. Humans do not have the capacity to understand the language or the situation that needs help. However, they can come through Mo and be of assistance to humans in that way. Mo just asks them to help with the intention, whatever it is.

30. Deer, I want this intention manifested.
31. Deer, I want this intention manifested.
32. Mourning Dove, I want this intention manifested.
33. I want healing for the “have to have” response, and I want this healing to go through Mo’s Kabbala energy.
34. I want the expectation of “living happily ever after” modified to include a continuum of expectations and the realization that it may be beneficial to settle for less than a storybook outcome.
35. Bat, I want this intention manifested.
36. Deer, I want this intention manifested.
37. Granite, I want this intention manifested.
38. I want all cells healed and connected with Spirit, and I want Spirit to want this intention.⁴
39. Honey Bees, I want this intention manifested.
40. Swordfish, I want this intention manifested.
41. Turkey, I want this intention manifested.
42. I want the intentions manifested in all living beings and all their parts—from the smallest to the largest—and in all body parts with consciousness, as needed for the highest good.
43. Eagle, I want this intention manifested.
44. Elephant, I want this intention manifested.
45. Hawk, I want this intention manifested.
46. I want these intentions automatically reactivated in the future as needed for the highest good.
47. I want this intention manifested, and I want the recipient to also want the intention.
48. I want insulated, closed, sealed, and locked to all that is less than absolutely 100% pure *the door that is ancient*, and I want energy clear and balanced.⁵

⁴ This statement (and some others) reflects the concept we call “mutual wants.” For example, in a heart transplant, not only does the person receiving the new heart have to want it, but also the heart—a body part with consciousness—also has to want it for complete success to occur.

49. Guidance, I want the forces of heat, spin, light, pull, water, sound, and rhythm to be absolutely 100% pure.

50. Seagull, I want this intention manifested.

51. I want insulated, closed, sealed, and locked to all that is less than absolutely 100% pure *all doors*; and I want energy clear and balanced.

52. I want this intention manifested.

53. Red Phalarope, I want this intention manifested, and I want the recipient to also want the intention.

54. Honey Bees, I want this intention manifested, and I want the recipient to also want the intention.

55. I want this intention manifested.

56. I want healed the guides' DNA flaw so that they are fertile and nurturing.

57. I want insulated, closed, sealed, and locked to all that is less than absolutely 100% pure *the door that is ancient*; and I want energy clear and balanced.

58. I want being a human who might make a mistake to see it as a learning experience.

59. I want all intentions manifested in the square, in the rectangle and in the unseen; and I want this to be forward and backward, inside out, down line, in the big now, in the space between and for the highest good of all.

60. I want insulated, closed, sealed, and locked to all that is less than absolutely 100% pure *the door that is ancient*; and I want energy clear and balanced.

61. I want a total phase shift.

I want to express our gratitude to all our helpers for making this work possible.
